

Mai 13-14:10

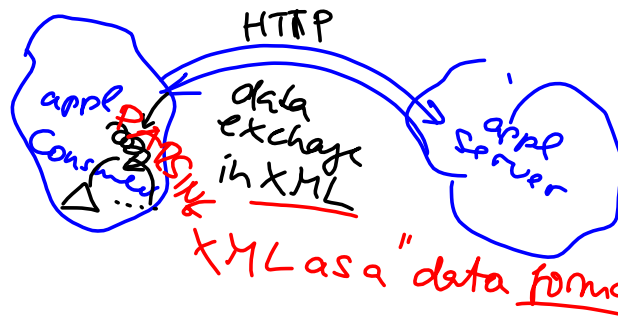

### XML situation

- where is the data ?
- sometimes it is in the DB (v)
- sometimes, it is somewhere on the Web

Mai 13-14:20

## XML for Web Data exchange

~ lower level than "data model"

cf. RDB: each producer/vendor has  
an own data format (cf. dumps)

XML: "data format"  
(serialization) is  
standardized
